MAIN TOPIC OF THE CONFERENCE:

Presentation of new knowledge concerning the impact of anthropogenic activities on hydrological processes occurring in lowland areas.

OBJECTIVES OF THE CONFERENCE :

1. Impact of anthropogenic activities on surface, soil and subsurface water regime in lowland areas.
2. Manifestations of extremes of hydrological processes.
3. Utilization and quality of surface, soil and subsurface water resources.
4. Physical aspects of water movement in unsaturated zone of soil profile.

(18. Slovak-Czech-Polish Scientific Seminar : **Physics of soil water**)
